## SUNSHINE RABBITS

MAMA FEARLESS, PATH OF LIFE, HEAT AND CONFIDENCE  
The founders of fur pop want one thing - YOU to dance!

Sunshine Rabbits is Swedens best underground party band. Sunshine Rabbits has Michael Jackson´s soul, Leila K´s spirit and Donna Summer´s sexy confidence. Equipped with irresistable, boogie friendly beats and lyrics that will make you laugh and cry at the same time they invite you into their furry world of electropopsongs where humour meets beats with a message.

With their provocative live show they have visited Ladyfest in Umeå, Skånes Ljudpark in Malmö and numerous venues where audiences succumbed to the big furry beat machine.

Sunshine Rabbits is what happens when some of Swedens finest musicians join forces and gives self-censorship a fat furry finger.

The members of this super group is:  
Cecilia Nordlund (Souls, Monkeystrikes, Cilihili, Dollykollot)  
Lotta Wenglén (Dollykollot)  
Petra Lilja (Sobsister)  
Carolina Carlbom (The Pusjkings)
